

## CLASSIC AND PREMIER SPINE CORRECTORS

Thank you and congratulations on the purchase of your new Peak Pilates® Spine Corrector. This product was developed with the guidance of our Peak Pilates® Master Instructor team and has a number of innovative features that will allow you to achieve better positioning and enhanced alignment throughout any classical, contemporary or rehabilitation exercises. Additional grip handles have also been placed to make it more comfortable to hold and easier to carry and move in your studio. The patent-pending rotational handle can be adjusted appropriately for proper alignment throughout the exercise and to accommodate a wide variety of body sizes. Thank you for being part of the Peak Pilates® family and we hope that this piece of equipment will bring you years of service and satisfaction.

Classic Spine Corrector SKU: 4910-2606-01 R1

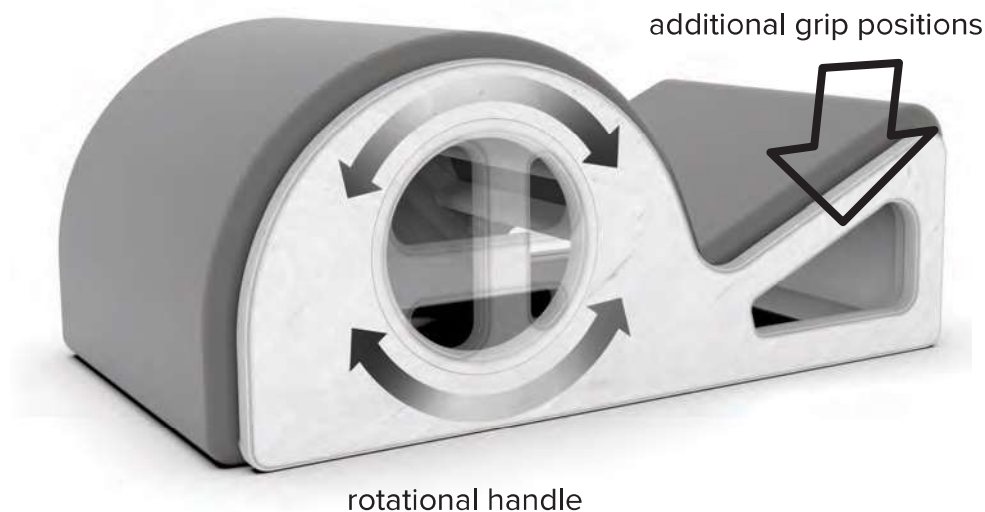

Premier Spine Corrector SKU: 4910-2607-01 R1

## THE ROTATIONAL HANDLE

Your new Peak Pilates Spine Corrector is equipped with a patent pending rotational handle. Note that the handle is intentionally off center so that the grip position can be used higher/lower and further up/down.

- Adjust the rotational handle as needed to find a comfortable and aligned position. Do not adjust the handles with pressure on them and/or in the middle of an exercise. Handles should move easily while adjusting.
- Use the additional grip positions for exercises and for moving the Spine Corrector. Insure that you have a firm grip and, for safety, always use both hands while moving.

## STACKING AND STORAGE

The Spine Corrector has flat sides for easier stacking and storage in your studio. We recommend stacking only 2 high for safety reasons.

- Scratches can occur on the wood if the unit is stored on a dirty or uneven floor. Insure that the area for storage is clean and will not damage the wood. Wipe off the sides of each product before stacking or storage on the side to maintain the factory finish.

## CARE AND MAINTENANCE

Your Spine Corrector comes with a high quality, non-toxic, water-based lacquer finish from the craftspersons at our Peak Pilates® wood shop in Longmont Colorado. Other than an occasional wipe down and dry (using a 10:1 diluted solution of a mild cleaner like Simple Green) no additional cleaning is necessary. Wipe the wood sides of your product and the vinyl upholstery with a soft cloth and treat it like you would a fine piece of furniture. NEVER spray any cleaners directly onto the Spine Corrector. Instead, spray the soft cloth first and use that moistened cloth to wipe down the Spine Corrector. Dry the product with a soft cloth as needed. DO NOT ATTEMPT TO LUBRICATE THE ROTATIONAL HANDLES in any way as it may permanently damage the Spine Corrector.

## WARRANTY

Peak Pilates® warrants to the original purchaser that our equipment will be free from defects in workmanship and materials. This warranty does not cover labor charges associated with replacing covered components. Part(s) repaired or replaced under the terms of this warranty will be warranted for the remainder of the original warranty period only. This warranty becomes effective upon the invoice date of the original purchase from an authorized Peak Pilates® dealer only. Peak Pilates® retains the right to either repair, replace, or refund the price of any defective components under this warranty.

The Peak Pilates® Spine Corrector carries a lifetime warranty on the wood frame and structure and a 90 day warranty on the upholstery.

Limitations and exclusions.

This limited warranty does not apply to normal wear and tear, cosmetic damage, imperfections that are within design specifications or that do not materially alter functionality, or damage due to acts of God, accident, abuse, misuse, negligence, lack of normal maintenance, abnormal service or handling that differs from that specified for the studio line of equipment, improper installation or improper operation. In addition, alteration or modification of the product is not covered.
